JOSIAH TURNER, Jr., EDITOR.

SURFACE VS. DEEP MANURING.

BY W. W. TURNER, OF HANCOCK CO.

Of course it is best for all the soil to be rich, and then every one of the numberless roots that a plant sends forth can find nourishment in abundance. The great objection to putting a quantity of manure in a lump, consists in the fact that, then, the roots all have a tendency toward that particular spot, only a given number of them can operate there to advantage, and the rest perish, or, at best, find nothing to bring home to the parent stalk, except what could just as well be conveyed by a less number. Take any vegetable production—even of those generally called tap root plants, turn a gently flowing stream of water upon it, so as to wash all the dirt away, and you will be astonished at the numerous emissaries it has sent out in quest of food.

The condition most favorable to vegetation is, where all these minute fibres can find, in whatever direction they may turn, the nourishment, which is essential to the best growth of the plant. It, in spreading out, in the manner most natural to them, they do not obtain what they seek, then they fail to perform their functions to the best advantage. They do not carry back to the stalk all the food it needs: they become dwarfed, to say the least of it, and it is only those which bring the desired sustenance that are really useful. In this fact consists the well grounded objection, that some people have, to manuring "in the hill."

Many farmers are entirely opposed to putting fertilizers deep in the ground, believing as they do, that surface manuring is the best. It results from a careless habit of observing and thinking. Manure applied to the top of the soil, generally in the course of cultivation, becomes diffused in such a manner, that many of the roots can draw nourishment from it, whereas, that which is placed deep in the ground, is hardly ever reached by the shallow plowing in vogue here, during the working of the crops, consequently, it remains undisturbed, in bulk, with the results described in the beginning of this article. But other things must be taken into consideration. One of the essentials to the useful action of manure is moisture. It is only in a state of solution that plant food can be conveyed to the recipient. The nutriment for the vegetable is carried through innumerable minute pores through channels so contracted that only a fluid can find its way along them. Of what avail, then, is the richest manure ever applied, so long as it remains in a perfectly dry state? How can it reach its destination through canals that have never been known to pass anything but liquids?

Here, then, is the argument in favor of putting manure deep in the ground. The surface of the soil first becomes dry. The top of our land earliest feels the effect of drought. The lower down the manure, the longer it remains moist, the longer it continues to give off portions in a liquid state, the longer it is able to send nourishment to the plant above ground, through the pores of the roots that delve down to seek it. This is the best reason with which I am acquainted, why we should put the manure where we have only a limited quantity, a good way below the surface. The cotton country, for which I am now writing, is a land subject to most unexpected and long-continued dry weather. During such seasons, what good can we expect from manure, lying so near the surface that it becomes "as dry as a powder house?"—*Farm and Home.*

* * *

HOW TO HOLD FERTILITY OF THE SOIL.—Gypsum attracts. It is not only a manure in itself, but it attracts the manure from the atmosphere that comes in contact with it, (which is abundant on windy days,) but it catches and holds the fertility of the ground that in some soils escape. Lime will also do this—so will clay. Clay, dried and powdered, is an excellent thing to put on a barn yard, or to cover a compost heap with, or work through the heap; hence we use gypsum and lime in our stables and privies. Gypsum is best; it has the most attraction, beside other properties. A little should be kept by every farmer for use, even at a high cost, as the benefit is sometimes more important than the high price. But we waste our manure; we not only permit its strength to escape, but we are glad to get it out of the way. The same recklessness extends to the land. It is well our soil has a good proportion of clay to hold its strength.

We must conserve. The time is not far distant when we shall be compelled to do it. Already there are symptoms of lack in our soil; we do not raise as heavy crops as we used to—here and there a field, here and there a farm is less productive. It is not so much that we need plaster here in the West to hold the strength of the soil, as to use it to abstract it from the atmosphere, and to save the ammonia of our barnyards and stables. For this let us always keep a little on hand. Let us save and improve our manure, and thus save our farms.—*Rural World.*

* * *

It has been proved that cows make the richest butter when they first go out to pasture in the spring; that they produce the hardest butter when fed on dry food; that butter made during the fall is best for keeping. The town of Rennes, in Brittany, is noted for its peculiar butter; the milk of the previous evening is mixed with the warm, morning's milk, and the mixture allowed to stand for two or three hours, when the whole is churned. Those who practice this plan claim that they thereby obtain a larger amount of butter and of a more delicate flavor.

* * *

Soak some blotting paper in a strong solution of saltpetre, dry it, take a piece about the size of the hand, and on going to bed light it and lay it on a plate in your bed room. By so doing, persons afflicted with asthma will find that they can sleep almost as well as when in health.

* * *

A correspondent of the *New England Farmer* says half a pint of salt dissolved in a pailful of soap suds and applied with a sprinkler several mornings in succession, will effectually destroy the cabbage worm, whose ravages have been so disastrous this season. It is easily tried.

* * *

TASTE.—A correct taste is ever the concomitant of a chaste mind; for, as a celebrated author has justly observed, "our taste commonly declines with our merit." A correct taste is the offspring of all that is delicate in sentiment and just in conception; it softens the inflexibility of truth and decks reason in the most persuasive garment.

* * *

The habit of indulging in ardent spirits by men in office has occasioned more injury to the public than all other causes. And were I to commence my administration again with the experience I now have, the first question I would ask respecting a candidate, would be, "Does he use ardent spirits?"—*Jefferson.*

DESIRABLE PROPERTY.

I WILL SELL OR EXCHANGE FOR GOOD City property one of the best Cotton and Grain Farms in Eastern North Carolina. The tract of land contains about twenty-two hundred acres, of which seven hundred acres are cleared, under fence and in good condition for cultivation. A large part of it is in cultivation this year. The soil is fertile, neighborhood good, labor cheap and plentiful. The dwelling house is large and commodious, with all necessary and convenient outhouses. The Stables, Barns, Houses for laborers &c are good and numerous. This farm lies immediately on navigable water, and has passing through it good water power, where there is now a Grist and Saw Mill and Cotton Gin. The place is desirable for conducting large Mercantile operations, and is a beautiful location for a town or colony. A Steamer passes every day, and touches at the wharf two hundred yards in front of the dwelling. The surrounding county is rich and improving, and settled by intelligent, refined and prosperous people. Address

OUR GREATEST WANT.

The greatest want in North Carolina is an honest, independent Judiciary. The life, property, character, liberty, and safety of the people are often in the hands of the Judiciary. It is necessary for the safety of the people and the security of their property that the Judiciary should be placed upon high ground, so high that fear could not intimidate or hope seduce them.

Our Judiciary is now humbled and prostrate in the dust. They lie prostrate at the feet of faction. They are the ready tools of the dominant party. Under the present system the Judiciary will continue to be the tools of the party which may predominate.

Except Judge Mitchell, our judiciary entered warmly into the canvass for their own election. They canvassed, haranguing the negroes from the sea shore to the mountain. They have aided the Executive in his late arrest and imprisonment of the people without warrant, law or the shadow of law. The judiciary have now shown to the people that law, justice and argument avail nothing when party spirit prevails. The present judiciary fought manfully to maintain the ascendency of their party. They were defeated; we shall soon be rid of them, and what then? We shall have Judges elected by another party. They will be dependent upon that party for their continuation in office. They will fight and struggle as the present Judiciary have done to maintain the ascendency of their party.

The question for our greatest consideration is shall our Judges be independent of political changes, or shall they fluctuate with the tide of party prejudice? Let a Judge depend on party for his place and he cannot be impartial; he will trample justice and the law under foot to serve the party and men who have elected him. The Courts will soon lose the public confidence and respect as ours have already done. Let the people all cry aloud for an independent judiciary, placed so far above party and faction, that they cannot be tempted, seduced, or intimidated.

COUNTY AGRICULTURAL SOCIETIES.

The SENTINEL has frequently urged upon our people the organization of County Agricultural Societies for the promotion of agricultural science and art and to encourage our home industries. This counsel, we regret to see, has not been heeded, except in a few cases. The difficulty lies in the want of a few enterprising leading men in every county and in a proper organization. Heretofore, every county organization has felt itself compelled to hold a Fair, this has involved too much expense, and Fairs became so common they run down. We are in doubt whether Fairs, as an appendage to an Agricultural County Society, do any good at all. They rather do more harm than good, in encouraging a waste of time and a waste of means, which might be better employed. Three or four Fairs a year in the State, judiciously distributed, would be enough, but there ought to be a County Society in every county and an auxiliary Society in every ten or twelve miles square in every county. The county Societies might meet twice a year and the neighborhood Societies once a month. At these meetings essays, on all subjects pertaining to agriculture, mechanics, &c., should be read and then two hours ought to be devoted to *conversations* in reference to experiments, or in answering inquiries. The amount of information thus elicited would be wonderful.

We should judge that the New Hanover Agricultural Society is at present one of the most efficient County Societies in the State. How often the Society meets we are not advised, but at a recent meeting of the Directors we observe that Committees were appointed to report upon various subjects at the next annual meeting. These subjects are suggestive and we give some of them, for the benefit of our readers, as follows:

On "the fertilizing influences of the atmosphere on crops and vegetation"—not very practical it is true, but interesting.

On "the difficulties connected with the pursuit of Agriculture by an unmarried man,"—practical and important to be considered by men in all vocations. Every industrious, frugal man, whether farmer or not, will find the truth of Solomon's declaration, "he that getteth a wife, getteth a good thing."

On the "advantages of a knowledge of Agricultural Chemistry to the Farmer,"—very great, indeed essential.

On the "adaptability of the soil and climate of New Hanover to the production of Cotton"—sensible and practical.

On "rotation of crops as adapted to New Hanover"—a thing necessary every where.

On the "necessity of legislative protection to agriculture and stock raising in North Carolina;"—so be it.

"Has the introduction of commercial fertilizers benefitted agriculture in New Hanover,"—well to be considered.

Now if these and kindred subjects were discussed once a month, say on the first, second, third or fourth Saturdays in each month, by the farmers, mechanics &c. of every ten miles in every County of the State, what a mighty change would come over our people and State in five years. We hazard nothing in saying, if this were done for five years, consecutively, in the next five years there would be a Rail Road built in every portion of the State where one is needed, and the public debt would be in a fair way of liquidation.

What say you fellow citizens? There is nothing really reliable or hopeful to be done for North Carolina until our people determine to become skilful farmers, and until more of our people become producers instead of consumers. All the wealth of the country must be dug out of the earth. All else is but the devising of means and ways to consume it.

OPINIONS OF JUDGE PEARSON, &C.

We observe that many of our co-temporaries, Democratic, Conservative and Radical, are doing injustice to the Caswell and Alamance Holden-Kirk prisoners, by publishing the opinions and the proceedings of the Court of Investigation as the decisions and proceedings of the Supreme Court of North Carolina. Gov. Holden is shamefully giving countenance to this idea, by having large numbers of the opinions struck off in pamphlet or hand bill form, for general circulation, headed Supreme Court. We called the attention of our co-temporaries to this fact at an early day. Hence we excluded the caption "Supreme Court," and placed at the head the more correct and truthful caption, "Habeas Corpus cases before Judge Pearson at Chambers." "Bench warrant cases before Judge Pearson at Chambers," &c.

The opinions delivered by Judge Pearson and Judges Dick and Settle as the result of these investigations, are not entitled to more consideration than those of a Justice of the Peace in any ordinary investigation, if as much, provided the Justice acted without party bias.

These parties were all arrested and brought to Raleigh some sixty or eighty miles from their homes, not knowing fully of what they were accused, and without sufficient time to collect proper testimony in their defence. They were brought before Chief Justice Pearson and Judges Dick and Settle, not to be tried for well defined and ascertained crimes, before a jury of their peers and a fair Court, but their conduct was brought up for investigation for alleged offences of which most of them knew but little, without time to collect testimony, before Judges who were already prejudiced against them by the partisan denunciations of Governor Holden, whose lawless conduct they had endorsed and sanctioned, until in the judgment of community, they, the Judges had become *particeps criminis* with him in his lawless and wicked acts.

Those who read the testimony with an unbiased mind, will be shocked in reading the opinions of the Judges, and the unquestioning credit given by them to the testimony of the basest of men and at their utter disregard of the rebutting evidence from men of high standing and character. The proceedings also showed the Judges in the light of prosecuting attorneys, and this was so palpable as to disgust the by-standers. The opinions therefore sent out, are disreputable to the Judges themselves in view of all the facts—show a desperate purpose to sustain Holden in his alleged necessity for his war movements and his Ku Klux falsehoods, and charge seriously good men with crimes which no jury in the land will sustain.

"KIRK'S LAMBS," AND THE SHOOTING.

When we noticed the rumor the other day that Kirk's men had been fired into on the train just beyond Salisbury, we stated the particulars as we received them from our informant and as he believed them.—He at the same time informed us, that parties on the train at the time said they saw and heard no firing except from Kirk's men themselves, but as he was inclined to think that they had been fired into by others, we stated it according to his impressions.

The following note from a subscriber, seems fully to justify the impression that they fired into each other, being so much intoxicated, they could not discriminate friend from foe. One thing is certain they were mean enough to have done that or any other mean thing in order to throw suspicion upon the people of Salisbury, against whom they seemed to be terribly mad because they did not resent the insults offered them by Kirk's men on his first visit. Read what our correspondent says:

SALISBURY, N. C., Sept. 12, 1870.

Hon. Josiah Turner, Jr.

DEAR SIR: Allow me through your paper to make a few remarks, in regard to shooting at "Kirk's Lambs," while in Salisbury. Some three or four hundred of them passed through here last Thursday night. When they arrived, there were none of our citizens near the depot. There were at least one hundred of them drunk and shooting amongst each other, and there is no doubt but the three that were wounded were shot by their own men. They left this place about 1 o'clock, A. M., as I have stated before, drunk and shooting at each other, and sir I can say, and safely say, that they were not fired upon by the citizens, as you supposed.

Very respectfully,
A SUBSCRIBER.

WHO GARBLED THAT LETTER?

W. W. Holden, in a card to the public, says that while in Washington City in July, he asked Senator Abbott for a copy of Tourgee's letter to him. He received the copy after his return to Raleigh. That Beecher, the *Tribune* correspondent, desired to obtain information about Ku Klux outrages and he handed him the copy which Abbott sent him, for information and not for publication. If that was a garbled copy he does not know who did it.

But did not Gov. Holden know, when he handed it to Beecher, that it contained arrant falsehoods? Did he not know that when Tourgee enumerated house burnings, burglaries and rapes among Ku Klux outrages, that he intended to convey a false impression and to charge the crimes of Loyal Leaguers upon Ku Klux?

We beg the New York *Tribune* to make a note of this.

For the Sentinel.

UNITED STATES SENATOR.

MR. EDITOR: I notice with profound regret, that some writers for your very valuable paper, who perhaps imagine themselves *Conservatives*, labor to show that the just claims, for United States Senator, of some of our most distinguished and trustworthy citizens, should not be considered by the Legislature of North Carolina soon to assemble in the city of Raleigh. These writers urge, as a reason for their position, that the political disabilities of the distinguished gentlemen they would exclude have not been removed by Congress. I regard this view of the question as entirely wrong, it is a "Radical" view, and is every respect an unjust discrimination.

I suppose all true Conservatives in North Carolina are agreed, touching one *very important fact*; that is, that no good and sufficient reason exists why any of our distinguished Conservative citizens should be disabled from holding any office of honor and trust within the gift of the people.

If this Conservative view of the question is correct, which no good *Conservative* can possibly deny, then why in the name of justice discriminate in favor of those whose disabilities have been removed? Thus to discriminate is virtually to endorse as just, the false theory that places many of our very best men under the ban; and to endorse such a theory is not *Conservative* and never has been, but it is *Radical* in the extreme.

I repeat therefore, that a discrimination policy—such as Mr. Cowan and others advocate, is an extreme Radical policy, and as such wholly unworthy a true Conservative. This very species of discrimination has been a distinctive feature of the Radical policy ever since that party came into power. I believe it was mainly because of the policy as held by the Radicals and opposed by so many of our good men, that our glorious Conservative victory in this State, was achieved at the late election; and now shall we mar the glory of that victory which has never been transcended in the splendor of its results in the whole history of North Carolina by yielding one of the cardinal and fundamental principles involved in the late great contest? *Never, surely never!* "Let justice be done though the Heaven's fall" is a noble sentiment; and, although the judiciary of North Carolina "*exhausted its power*" before it attained its sublime height, still it is the sentiment that should govern our legislators in the selection of a United States Senator, as well as in the discharge of other duties, and no sentiment less worthy will satisfy the people.

The triumph of the Conservative party at the late election is a complete vindication of our right to select our best men to fill our places of honor and trust, and let us exercise this right in the selection of a Senator, and if the man of our choice is rejected on account of his "so called" political disability, the blame can attach only where it belongs, and that is, to the power that rejects him.

I must confess I have been greatly astonished to find such men as Mr. Cowan, advocating a discriminative policy. I have never had the pleasure of a personal acquaintance with Mr. Cowan, he claims to be a Conservative; yet I must be allowed to tell him that his views appear to me as extremely Radical, but I have the charity to hope that he does not intend to advocate Radical principles. Certainly Mr. Cowan will not fail to see that, to ignore the claims of our very best men because they happen to be under the ban, is eminently Radical in theory, and while Mr. Cowan may not intend it, still it seems to me his position is virtually an endorsement of this very odious Radical doctrine.

Should a Senator be chosen whose disabilities have not been removed, and should he be denied his seat on this account, the responsibility, as already intimated, will rest, not with the authority that elects, but with the power that rejects him. Without any discrimination, therefore, on account of the Radical views entertained by some, I hope our Legislators will have the nerve to do their whole duty in the selection of a Senator; and should the most suitable man be found among those whose disabilities have not been removed, he should, nevertheless, be elected unhesitatingly. The people would have occasion to rejoice at his election whether he should be admitted to his seat or not, on the grounds that, in any event, they will have the consolation of knowing that a great State, by her legally constituted authority, will have fixed her seal of condemnation on the odious discriminative policy of the Radical party, by the selection of a Senator without regard to such a policy. A firm adherence to this principle will, in my opinion, do much to break down the party that would deny us the time honored right of selecting our best men—men of our choice—to represent us in the National Legislature. Hence as a matter of principle the claims of our most worthy men, without regard to their disabilities, should be duly considered.

Again, there is good reason to believe that Congress will, very soon, pass a general amnesty bill, and then the objection, on account of political disabilities, will be removed. But suppose this should not occur; *still*, who would not rather have a Graham, a Vance, a Bragg, a Eaton, a Turner or a Reid, (David S.) knocking for entrance at the door of the United States Senate for the next six years, than to have some political adventurer in his seat by the side of Pool? For instance, who would not blush with shame, at the reflection that he was represented in the United States Senate by such a man as poor old "played out" Clingman, or Phillips, or Badger, who procured the removal of their political disabilities through the agency of Deweese, and Abbott, and John Pool, who *swore* he loved the "Southern Confederacy" in order that he might betray it. One Judas Iscariot, it will be remembered, once professed to love our Saviour, but he afterwards betrayed and sold Him to the wicked Jews for thirty pieces of silver; and, on reflection, he felt so very mean about it that he had to go off and hang himself to get rid of the lashings of a guilty conscience, and, I believe, it would be a credit, and perhaps *comparatively*, a very great comfort to Pool, if he would go and do likewise.

But, why have the political disabilities of the distinguished Conservative gentlemen I have named, and others to whom I might refer, not been removed? Simply because they are gentlemen by education, taste and feeling, and North Carolinians in sympathy, and in every way worthy of the confidence of the people. Such men could not afford to buy their natural born rights at the hands of usurpers and thieves. Consequently, their disabilities have not been removed. These noble Conservative leaders too, have dared to oppose the policy of the Radicals by whose unwarranted exactions they have been declared disabled, and this, according to *Radical ideas*, is enough to disable them forever.

But, shall a Conservative Legislature disregard the just claims of these great and good men simply because Radicals have said they are justly under the ban? *Never!* but rather let us, in this hour of victory, prove ourselves worthy of our glorious triumph by honoring some one of those to whom we are mostly indebted for our great success at the late election, and to whom Radicals are mostly indebted to for their glorious defeat. To do less than this would be base ingratitude, worthy only of "played out" Clingman and such.

Were I a member of the Legislature these truly Conservative men,—those tried, unbought and unbuyable men whom Radicals hate—are the very first whose claims for senatorial honors, I would consider; and poor old "played out" Clingman and others like him, who are indebted to Deweese, Abbott and Pool for the removal of their disabilities, are the very last. Sooner far, give me Africa "*strait*" *and unadulterated.*

But, "played out" Clingman is only a "*ten per cent*" Radical, and of course he has no claims at all on a Conservative Legislature. I wish, however, to say that I only refer to the "old man" in this connection as the *ne plus ultra* of all that is necessary to illustrate the Radical view of any subject. Still I believe this "old man" is just about as much entitled to the honor of being made United States Senator as any man who would claim precedence on account of having had his disabilities removed under circumstances of questionable propriety to say the least of it.

But why do I say "old man" Clingman and *such*, who have been made the special favorites of carpet-baggers and native scalawags and the very least whose claims to senatorial honors should be consider? Simply because to be made the favorites of Deweese, Abbott and Pool, and men of their character, is in itself a *very suspicious circumstance.* If a man is highly complimented by thieves, honest men will necessarily suspect him.

For example, if Gov. Holden were to compliment me in the *Standard* I should feel exactly like I had stolen something,—declared some quiet and peaceable county in a "state of insurrection"—hired cutthroats from East Tennessee to rob and plunder our people, to provoke resistance, sought diligently for a pretext to declare a whole State under martial law, arrested and cruelly imprisoned many good citizens, and hung a few to make them "*confess*;" and then after having signally failed to create an excuse to imbrue my hands in the blood of many good men, conquered and utterly defeated by a "masterly peace," had then wrongfully taken from the public Treasury, money rung by exorbitant taxation, from an oppressed people, to pay the "*pet lambs*," in whose service it would seem that only the devil himself could find delight. In a word, if Gov. Holden were to compliment me I should feel like I had been guilty of al the crimes in the catalogue. Oh! praise me not thou traducer of good men, and applauder of the wicked, but spare me such a feeling as I have described. It is such as the very worst men only and fiends can endure.

I pity from the bottom of my heart, the poor wretch whose guilty conscience, unless he repents, must never cease to be stung by the recollection of such horrid crimes. But if he repents, such a draft on Divine mercy is rarely ever made, as it will take to wash the guilty stain away.

Mr. Editor, I may have occasion to refer to this subject again. For the present my "*power is exhausted*."

Respectfully, &c.,

CLUBS.—We are indebted to our friend, S. P. Cox, Esq., of Speight's Bridge, Greene county, for a handsome club of subscribers and the *cash*.

Wilmington is bent on having a City Park. Go it while you are young—but remember other things are more needed.

The colored firemen of Wilmington, are taking steps to purchase a steam fire engine. Two thousand dollars, it is stated, have already been subscribed.

Bishop Atkinson has withdrawn his appointments, heretofore announced, for Yanceyville, Milton, Hillsboro' and St. Mary's, in Orange county, being under the necessity of going to Baltimore to assist in the consecration of Dr. Pinkney, Assistant Bishop elect, of Maryland.

A good deal of sickness is reported in the Roanoke country.

Rev. Leonidas Siler, died suddenly at Franklin, Macon county, on Friday last.

Webster, the county seat of Jackson, has a new hotel.

On Wednesday next, the Fire Department of Wilmington, will have a grand display, ending with a banquet at night, in honor of the arrival of the new steam fire engine "A Adrian."

James H. Clanton, the chairman of the Democratic State Committee of Alabama, announces that "he intends fighting Radicalism in Alabama in all parts of the ground—politically, war to the knife, and knife to the hilt." Such things will tell. Alabama already gives the best assurances that she will cut entirely loose from the rule of the Republicans and carpet-baggers.

FOR THE IMPROVED
"UTLEY COTTON PRESS."

THE "UTLEY PRESS" So well known, and which gave entire satisfaction last season, can be obtained of me at Raleigh, or my Agents, Messrs. Mitchell, Allen & Co., Newbern, with its improvements.

Price $175.00.

This invention of power, whereby all friction is overcome, its simplicity, economy and durability, astonishes all who see it; and the more so, that a power so simple should have remained so long unappropriated. The strain is wholly borne by the Bed Plate, Follower Block, and two 1½ inch square iron bars, which is capable of sustaining a strain of 190,000 lbs. Thus giving much more strength than is required. WITH THIS PRESS TWO MEN CAN PACK A BALE OF COTTON WITH EASE IN EIGHT MINUTES WEIGHING FROM 400 to 550 lbs.

One man can do the work, only requiring longer time.

It occupies a very small space, and can be so placed as to receive the lint direct from the Gin or Lint Room, as may be desired. Thus doing away with baskets, and frequent handling of the lint.

It is light in weight, can be taken down or put up in 30 minutes and transported on a two Horse Wagon.

I believe it unequalled by any Press for power, convenience and durability.

Press complete—Depth Cotton Box 8 feet. Size Bale 4½ feet x26x28x30in; wt. Bale 400 to 550 lbs.

THOS. H. BRIGGS.

PITTSBORO', N. C., May 6th, 1870.

T. H. BRIGGS, Esq.: Dear Sir:—I used the "Utley Cotton Press," I purchased from you last season, and consider it to be the best Press I ever saw. Having packed bales to weigh from five hundred and ninety (590) to six hundred and twelve pounds (612) I consider it the best and most durable Press I ever saw used, and can cheerfully recommend its use to the farmers of North Carolina.

Yours truly, C. W. BYNUM.

FRANKLINTON, N. C., April 16th, 1870.

MR. THOMAS H. BRIGGS: Dear Sir:—Yours of 13th instant inquiring as to the merits of the "Utley Cotton Press" is to hand, and in reply I would say that I have tried other Presses and consider the *plan upon which the Utley Press works* cheaper, simpler and more durable than any I have met with.

Yours very respectfully,
JAS. R. WILDER.

RIVER LAWN, CUMBERLAND CO., N. C., April 22nd, 1870.

THOS. H. BRIGGS, Esq: Dear Sir.—In reply to yours of the 13th asking how I was pleased with the Utley Press I used last season, I would say *that it gave entire satisfaction.*

Respectfully yours, CHAS. H. BLOCKER.

HILLSBORO', N. C., April 22nd, 1870.

THOS. H BRIGGS, ESQ., Raleigh, N. C.: Sir—I have used "Utley's Cotton Press" for baling hay for some months. It works well and gives entire satisfaction. I regard it as the best Hay Press I have seen.

Respectfully, R. H. POGUE.

RALEIGH, N. C., June 16th, 1870.

T. H. BRIGGS, Esq., Raleigh, N. C.: Dear Sir:—I used the "Utley Cotton Press" I purchased from you last season. I packed my own crop of cotton also other crops for my neighbors, making in all one hundred bales. I consider it superior in all respects to any Press I have ever seen and that it is every thing the patentee represents. I packed bales weighing from four hundred to five hundred and ninety-seven pounds.

Yours truly, W. T. HOWLE.

ARROW TIES!

FOR BALING COTTON.

250 TONS, (10,000 Bundles, 56 lbs. each, and containing 30 Ties and Buckles,) now in Store.

IMPORTED DIRECT FROM LIVERPOOL.

WE OFFER TO THE FARMERS AND MERCHANTS OF THE STATE THE ABOVE TIES, which are now so universally known and approved throughout the Cotton States, as the

Neatest, Strongest and Most Easily and Quickly Applied of any Tie Known in the Market.

The fastenings, as well as the bands, are of the best ENGLISH WROUGHT IRON, and experience has shown that they do not break, as many of the CAST IRON fastenings of other Ties do, thereby saving much expense in rope, labor and mending Cotton at the shipping port.

☞ Prices as low or lower than GOOD TIES can be bought at in any market on the Coast. ☜

☞ Liberal Arrangements made with Merchants and Dealers. ☜

THE SENTINEL.

CITY AND STATE ITEMS.

WEDNESDAY, SEPTEMBER 14, 1870.

☞ THEO. N. RAMSAY, as Business Clerk, is authorized to make contracts and give receipts, &c., &c.

We are authorized to announce Mr. William E. Pell, Jr., of this city as a candidate for Reading or Assistant Clerk of the State Senate. Mr. P. has been the Reporter of the SENTINEL in the Senate for several years.

Sept. 2 tf.

We are authorized to announce ROBERT H. HENLEY, formerly of Randolph County but now of this city, as a candidate for Assistant Doorkeeper to the Senate. He is an honest, sober colored man, has been a consistent Conservative from the first, and the Pressman of the SENTINEL for several years.

We are authorized to announce C. B. Green, Esq. of Durham, Orange Co. as a candidate for Reading or Assistant Clerk of the House of Representatives in the next General Assembly.

tf*

OUR EXCHANGES will please accept our thanks for their complimentary notices of the SENTINEL. We hope to make them more deserved in future.

Remember the Temperance Fair to-night.

MAGISTRATE'S COURT.—Yesterday morning David Fan and Weston Rogers were brought before Wesley Whitaker, J. P., charged with having stolen $400 from Henry Cook on the 18th of last month.—Richard H. Battle, Jr. appeared for the defendants and Hon. D. G. Fowle for the prosecution. Justice Whitaker after listening to the testimony and arguments required a bond of $600 for the appearance of the defendants at the next term of the Superior Court. Rogers gave his bond but Fan being unable to do so, was committed to jail.

ATTENTION, FIRE COMPANY, No. 1.—You are hereby ordered to meet at Fireman's Hall, to-morrow (Wednesday) evening, at 7½ o'clock. A full attendance is requested. Come prepared to purchase your uniform.

By order of the Foreman,

JOHN E. WILLIAMS, Sec'y.

A PARK! A PARK!—That sporting little carpet bagger, Gen. Littlefield's nephew, it is said, is complimented highly for his indefatigable efforts to induce the Commissioners of the city to convert the old Baptist Grove into a public Park for the city. The substantial men of the city who have to foot the bills are not consulted by the Commissioners. They have already run the city in debt beyond its ability to pay easily, and the tax payers are complaining bitterly at their oppression. Better let other useless expenditures alone till we get out of the woods.

POLICE ITEMS.—Josephine Andrews, Jane Jenkins and Rosana Lewis, a bevy of *nymphs du pave*, were arrested by Policeman Craven on Monday night and brought before His Honor yesterday morning, charged with walking the streets at a late hour and loitering at the corners after being repeatedly ordered to go home. Promises of better behavior being made, His Honor released them with a caution to "go and sin no more."

Kinch Ann Edwards was also arrested on Monday night on the suspicion of having feloniously appropriated to her use a wash-bowl and towel belonging to a neighbor.—In default of bail, Miss Kinch Ann was committed to jail.

The Board of Commissioners of this county have ordered that the Trustees of Raleigh Township take charge of the School Houses and other property belonging to the Common Schools of said Township.

MASONIC.—At a regular meeting of Wm. G. Hill Lodge, No. 218, A. Y. M., the following officers were elected for the ensuing Masonic year:

Wm. Simpson, W. M.
Alex. S. Heide, S. W.
John C. Blake, J. W.
J. G. Williams, Treas.
J. H. Alford, Sec.

We are told that this Lodge is in excellent condition. Its membership is large, having been in existence seven years and never having lost a member but one from any cause, and he by accident on Railroad.

The *Old Constitution*, published at Danbury, Stokes county, is soon to be enlarged.

REPORT.—It is reported about the streets that Gov. Holden, has fallen out with his factotum Farris and turned him adrift.—We know not of the truth of the report, but if it be so, we congratulate Farris upon the severance of his relations with the Governor, and congratulate Solomon Bragg that he has gotten rid of Farris.

The Sergeant in charge of a detachment of U. S. soldiers, who recently disappeared mysteriously at Dover Station, has turned up in Newbern. He says that being under the influence of liquor he strayed off into the woods and there remained until he recovered the use of his faculties, when he returned to Newbern to look up his command. He deserves to be put in the *jug*.

The First Presbytery of the Associate Reform Church of South Carolina and this State, held its Fall session at Little Steel Creek Church, in Mecklenburg County, on the 5th and 6th inst., Rev. G. E. Presly was Moderator, and Rev. J. G. McLaughlin preached the opening sermon.

The Spring session of this body will be held at Yorkville, S. C.

GOV. VANCE was at the brilliant ball at Alleghany Springs, Va., at the close of the season, in company with Gens. Beauregard, Hardee, Gordon and other prominent Southerners.

We are glad to learn from the papers that the health of Judge Chase is improving.

CITIZEN OF YANCEY.

We admit the article of a "Citizen of Yancey" although we differ entirely with him in some of his views, simply because he expresses the sentiments of a number of influential and earnest supporters of the Democratic Conservative party. A very large majority of the Conservatives of the State, we judge, differ almost *toto celo* with him, and will, no doubt, except very strongly to some of his views. It will be hard to convince many that a "Citizen of Yancey" is not more of a Radical than our friend, Col. Cowan is, and many others who hold his views. On almost all questions there is both a philosophic, practical view to be taken, as well as a metaphysical, abstract, impracticable view, in which those who take the latter position, feel as happy and as well assured that they contend *for principle*, however profitless it may be, as the other, who thinks he adheres to principle and yet makes his bread. We shall not be surprised if a good many of our readers, conclude that our correspondent is one of those metaphysical, abstract theorists, who sometimes "cut off their noses to spite their faces."

THE STATE FAIR.

We hear encouraging news of the prospects of the State Fair in October. The officers here are making their arrangements we understand, very complete, in order to secure a fine exhibition and give general satisfaction. We hope to see a larger attendance and a fuller exhibition of the industry and agricultural and artistic skill of our people than ever before.

Are our people looking to it and arranging for it? The time is short. The 18th of October is but slightly over a month off. There is much to be done in that short period. We hope all are at work.

The Governor's Body Guard is in *statu quo*—no one being sufficiently mad with his Excellency to disturb his slumbers, believing that *conscience* keeps him sufficiently awake. By the way, we remember that we heard sometime ago, on his late visit to New York he consulted the Spiritists.—Presuming that he is a believer in such phantasms, we insist upon it that he have Stephens', Outlaw's and Puryear's spirits called up to question them about their murderers. The Spiritists, we judge, are more of a match for Ku Klux than Holden is.

CHEROKEES.—The Cherokee Indian nation, in council in the Indian territory, resolved, on the 10th inst., authorising the principal chiefs to inform the Commissioner of Indian affairs of their willingness to receive the North Carolina Cherokees into the nation, provided they remove without expense to the nation, and also that no rights or benefits now claimed by them be granted till they shall have removed West and become identified as citizens of the nation.

HON. HORATIO SEYMOUR.—This gentleman while at Chicago on the 18th, was invited by a delegation from the Democratic County Convention to attend the meeting, which he addressed briefly. He thanked them for their kind reception, and said that recent events had satisfied him that the power and destinies of the federal government was fast centering in the valley of the Mississippi and the great West; and he knew that in the keeping of such a people, who were the blood and kindred of the East, the old landmarks and liberties would be sacredly preserved.

Counterfeit fifty cent fractional currency is becoming immensely fashionable again. Look out.

Receipts of the city of Wilmington for the month ending Sept. 10th were $45,560,-95; payments for the same time, $28,890,-13; Cash on hand $17,670.52.

The committee in charge of the preparations for the Grand Tournament, to come off during the week of the Cape Fear Agricultural Fair, have increased the attractions of the occasion by offering a $300 horse as a second prize, leaving the saddle and bridle for a third prize.

What a beautiful sight it must have been to see the 8,000 Sunday School children at a pic nic last Tuesday at Jamesburg, N. J.

The Empress Eugenie and her son, the Prince Imperial, are living at Hastings in England, secluded from society.

The term of the New Hanover Superior Court, commences on the 17th of next month, Judge Russell presiding.

NOT TO BE DETECTED.—The hues imparted to gray heads by PHALON'S VITALIA, OR SALVATION FOR THE HAIR, are as vivid as those of nature, and the change is not effected by a disregard of cleanliness, as is the case with the other hair coloring preparations, the VITALIA being eminently clean. No sediment. Sold by all druggists and fancy goods dealers.

Trust what Time has Sanctioned.

The maxim that the voice of the people is the voice of the divinity, may in some cases, be open to doubt, but the testimony of honest and enlightened witnesses extending through a series of years, and all to the same purport is worthy of credence, admits of no question. Upon such testimony the reputation of Hostetter's Stomach Bitters as an antidote and cure for many ailments is based. During the twenty years that it has been before the world innumerable preparations intended to compete with it, have gone up like rockets, and come down the extinguished sticks. Meanwhile the progress of that incomparable tonic has been swift and steady—always upward and onward like the eagle's flight. Its introduction produced a revolution in therapeutics and it proved to be one of those salutary revolutions that cannot go backwards. To-day Hostetter's Bitters is one of the most popular remedies in christendom, and commands a larger sale than any other medicinal preparation, domestic or imported, on this side of the Atlantic. As a cure for dyspepsia, bilious disorders, nervous affections, general debility, and as a preventive of epidemic fevers, it takes precedence of every other remedy. This fact should teach the ambitious country dealers who endeavor to foist their local abortions on the public in its stead, how futile their small attempts to cajole the community must necessarily be. Where the game fish have failed there is no chance for the "suckers."

TELEGRAPHIC.

Tuesday Evening Dispatches.

WASHINGTON.

WASHINGTON, Sept. 13—The State Department is officially advised that the Prussians yesterday were within 25 miles of Paris.

MAINE.

PORTLAND, Sept. 13—One hundred and fifteen towns give Perham 5,541 majority. A Republican gain of 168. Lynch, whose district was the only doubtful one, is certainly elected. The towns to hear from gave 1 231 Republican majority last year.

BANGOR, Sept. 13.—The Democrats are rejoicing over their first majority in this city.

CALIFORNIA.

SAN FRANCISCO, Sept. 13.—The Oregon Legislature has organized; Democrats fill all the offices.

FOREIGN.

LONDON, Sept. 13—The *Telegraph's* Paris correspondent says, that the American recognition is really little valued and is regarded as a mere expression of good will without material weight in the European system. On Sunday a Prussian reconnoitering party encountered the French at Chateau Thierry. The Prussians were repulsed with considerable loss.

The city of Soissons refuses to surrender.

The steamship "Napoleon" is transferring French refugees to England. Enquiries are progressing at Paris regarding the distribution of the immense secret service fund under the Emperor's administration.

PARIS, Sept. 13—Fonvilte, the celebrated aeronaut, is constantly on the watch in his balloon, for the approach of the Prussians. Other balloons are prepared and properly anchored to watch the entire field.

MADRID, Sept. 13.—Sickles, who is rusticating, occasionally visits the Capital. The diligence which Sickles usually used, was halted and Sickles called for but fortunately he was not in it. The government now furnishes a guard to him.

ROME, Sept. 13—Immense posters are on the Dead Walls, proclaiming the universal Haytian Republic, signed by the Republican Revolutionary Committee.

MARKETS.

NEW YORK, Sept. 13.—Stocks very dull; Money 4 to 5; Gold 13⅞; Sterling unchanged; 62s 12¼. Flour dull and unchanged; Wheat quiet; Corn firm; Lard steady; Cotton quiet and firm, Uplands 19¾, Orleans 20¼, sales 550 bales; Spirits Turpentine firmer; Rosin 1 95 to 1 97½.

LONDON, September 13.—Consols 92¾; Bonds 90.

LIVERPOOL, Sept. 13.—Cotton steady; Uplands 9½, to 9⅝, Orleans 9¾ to 9⅞, sales 10,000 bales.

Tuesday Night Dispatches.

WASHINGTON.

WASHINGTON, Sept. 13.—Revenue $2,000,000.

There is still considerable anxiety in Radical circles, regarding the result in Maine. No news since this morning.

NEW YORK.

NEW YORK, Sept. 13.—A special to the *Tribune* says: "Cordohna commands the troops on the Roman frontier. He proclaims to the Roman people that he brings peace not war, and that the independence of the Holy See is to be inviolate. The troops marching on Rome are received enthusiastically."

The Board of Health report the yellow fever on board of seven vessels, all from Cuban infected ports, and are now at quarantine.

FOREIGN.

LONDON, Sept. 13.—Count Bernstorff, the Prussian Ambassador, has been in consultation with the Earl of Granville at Walmar castle since Saturday. Both came to London to-day.

Thiers and Granville are now consulting at the French Embassy. It is rumored on the streets that Metz has surrendered unconditionally. The Prussian Embassy credits the rumor, but has no official advices. Owing to the unsatisfactory mail arrangements bills from America are being constantly protested; letters of advice coming by slower vessels arrive too late.

The *Times* says that if the terms proposed by Thiers are at all reasonable, England will back them.

China advices through Russia sources are unfavorable. The Chinese are preparing for war. Further outrages have been committed on Missionaries.

The ship wrecked, on Goodwin Sound, is still unidentified.

The *Morning Post*, in speaking semi-officially says: Neutrals have abandoned all hope of suspending hostilities. Beust is making no further efforts towards mediation.

FLORENCE Sept. 11.—The Italians are enthusiastically welcomed in the Papal States.

Bismarck's official report to the King, dated the 2nd, describes the interview with Napoleon at Sedan. Napoleon wanted better terms of capitulation than the Germans offered. Bismarck refused to discuss the subject, as it was a military question, but was willing to discuss terms of peace.

The Emperor replied, that as he was a prisoner, such a discussion was impossible, and referred Bismarck to the government at Paris. Bismarck replied that the situation of Paris offered no entering point for peace. The overtures that the Emperor proposed was that the French army be allowed to pass into Belgium, and there surrender. This was refused. The Emperor stated that he deplored the horrors of war, but had yielded to public opinion in declaring war. The Emperor was not allowed to see the King until the capitulation was completed.

PARIS, Sept. 13.—It is said that the main body of the Prussians reached a point within 28 miles of Paris yesterday afternoon.

MARKETS.

NEW YORK, September 13—Cotton weak, sales 1400 bales, Uplands 19¼; Flour unchanged; Wheat 1 to 2 cents lower, winter red and amber Western 26 to 27, white Southern 25 to 30; Corn opened a cent better and closed at a heavy advance, Pork dull at 26½ to 27; Lard 16 to 16½; Whisky lower at 88 to 89; Groceries and Naval Stores firm.

Money easy 4 to 6; Sterling very dull; Gold very dull at 13¾ to 13⅞; Governments steady and dull; Southerns opened dull; Vas. 64, new 66.

BALTIMORE, Sept. 13.—Flour dull; Freights steady; Corn scarce, white Southern 90 to 93, Yellow 85 to 90; Provisions active; Whisky unchanged.

LIVERPOOL, September 13.—Cotton firm, Uplands 9½; Orleans 9⅞, sales 12,000 bales.

BANKER CIGARS.

PUFF OF SATISFACTION.—Nothing is more grateful than the solace of a good-flavored and free-smoking cigar. Such are Mehegan's Bankers, the best cigars for their price in the country. They have become so universally popular in North Carolina, in Raleigh particularly, that all the inveterate smokers are breaking their pipes.

We honestly think two boxes of Mehegan's Bankers might be induced to influence even Grant to compassion in regard to the suffering Cubans.

We recommend the Bankers, and know whereof we affirm, for as we write we are consoled with the proud satisfaction of puffing one, and enjoy it hugely.—Norfolk Journal.

NON-EXPLOSIVE COMBINATION BURNING FLUID

THE CHEAPEST, BEST AND SAFEST ILLUMINATING AGENT IN THE WORLD!!

No more Exploded Cans!—No more Exploded Lamps!
No more Smoke!—No more Grease!
No more Fires!!

EVERYBODY PREFERS IT AFTER GIVING IT A TRIAL!

IT costs less!—It lasts longer!—Gives a more Brilliant Light!—May be burned in hand lamps, without chimney.

Guaranteed to make a better and safer Light than Coal Oil and to be NON-EXPLOSIVE!!!

No accidents have ever happened with it.

Protected by Copy right for 28 years from May 8th 1868.

The above Fluid has been in constant use for upwards of three years, and has sustained its unrivalled reputation, as a brilliant, non-explosive illuminating agent, though subjected to the severest tests. Being universally conceded to be superior to Kerosene or Coal Oil. It makes a better light and more of it, than any other illuminating compound. Soft, clear, steady and uninjurious to the eyes. All that is asked is, a fair and impartial trial.

Among the numerous testimonials received read the following:

PHILADELPHIA, March 15th, 1869.

The undersigned, having witnessed the experiments of Messrs. Hale & Co., with their Combination Burning Fluid, take pleasure in commending it to the public. The various tests to which the Fluid was subjected, was in the highest degree satisfactory. We have no hesitation in pronouncing it to be a *safe and brilliant* illuminating agent. Its cheapness added to its other good qualities, should insure its introduction into every family in the country, where Kerosene Oil is used.

H Mowry, Ganger and Inspector Coal Oil Philadelphia; Evans, Stone & Davis Dealers in Petroleum 104 Arch St., Philadelphia.

Testimonials without number from citizens of this, as well as those of other States might be published, but the above is sufficient. Any person having the Right can make 8 to 10 bbls., of the Fluid in an hour.

GENERAL AGENTS,

CHARLOTTE N. C.

THE EQUITABLE

HAS BECOME THE LEADING COMPANY OF THE WORLD.

Its New Business (sum assured), for the year 1869, exceeded that of the second company in rank by more than THIRTEEN MILLION DOLLARS.

In 1860 it was the 9th Company in new business for the year; in 1861 it was the 8th; in 1862 and 1863, the 7th; in 1864 and 1865 the 6th; in 1866, the 4th; in 1867, the 3d; in 1868, the 2nd;

In 1869 it was the FIRST.

The insuring public should not allow itself to be deceived with regard to the term "Annual Dividends." Many companies using this expression mean that their dividends are "annual" AFTER THEY ONCE BEGIN TO PAY THEM AT ALL; but they DO NOT BEGIN TO PAY until the settlement of the third, fourth, or fifth premium.

One hundred Dollars paid in dividends, at the end of *one year*, and each year thereafter, equals FOUR HUNDRED AND THIRTY-SIX DOLLARS paid at the end of FOUR YEARS, interest at six per cent.

Applications for Assurance may be made to any of the Society Agents throughout the country, or in person or by letter to the General Agents.

Gentlemen of character desirous of forming a connection with the Society as Agents are invited to communicate with its General Agents.

Wm. M. Cole, Secretary.
Daniel Ayres, M. D. LL. D. Med. Director.

POLICIES VALUABLE IN LIFE, AS WELL AS AT DEATH!!

THE BROOKLYN LIFE, IS THE ONLY COMPANY IN AMERICA WHICH GUARANTEES

DEFINITE CASH SURRENDER VALUES,

IN CASE A POLICY IS FORFEITED FOR NON-PAYMENT OF PREMIUM.

The BROOKLYN LIFE enjoys the highest reputation *for judgment of investment, economy of management, and skill and care in the selection of risks*,—upon which elements of administration the security of a Life Insurance Corporation *depends*.

The laws of New York compel Companies in that State to calculate the Cash value of their Policies, each and every year, *and a certain legal standard of reserve and accumulation must be held by the Companies to meet all their liabilities*.

Insurers, in looking around for Companies in which to insure, should carefully seek for this important SAFEGUARD. It will be found in the BROOKLYN LIFE.

CASH ASSETS - - - - - - - - $500,000.

YOUNG, HEALTHY, VIGOROUS AND CONDUCTED BY A WISE, PRUDENT, AND ECONOMICAL BOARD OF DIRECTORS UPON A

NEW SYSTEM,

devised by its talented and distinguished Actuary CHAS. N. MORGAN, which must make it the leading Company in America, for persons in

MODERATE CIRCUMSTANCES,

and all who appreciate and demand the most UNQUESTIONABLE SECURITY, at rates in *most cases, considerably lower than those of the leading Mutual Cash Companies*.

The Excelsior issues Policies on *all* the plans of *Mutual or Stock Companies*, extending to policy holders, all their really desirable advantages. Its policies being *non-forfeiting*, the insured are privileged to *live and travel where they please* in any healthy part of the *world*, they participate in its profits, are allowed 30 days grace for payment of renewal of premiums, a cash surrender value of policy, and a *privilege* which has never been offered by any other Company, that of converting Policies into

ANNUITY BONDS,

after the payment of 5 or more annual premiums.

Hitherto, I have been restricted in the very popular Company which I had the honor to represent to *Stock rates* alone, which most of the *Mutual*, and mixed Companies have adopted. This disadvantage, together with the multiplication of many new Companies, in this State who claimed to possess unusual charms, together with the extraordinary attractions presented by the Excelsior induced me to accept the management of that Company, whose plan combines all the popular features of other Companies, represented in this State, without an exception, and the additional privilege of converting policies, which the holder can not afford to keep up, or wishes to discontinue because of the death of those for whose benefit the policy was secured, into an *Annuity Bond* which provides an income in cash *through life, or for a series of years as preferred*.

Circulars giving full explanations and any other information, will be cheerfully furnished.

The most liberal arrangements, will be made with first class solicitors, to push the Excelsior forward in the Old North State, to that position which her low rates and most ample security entitle her to occupy.

P. F. PESCUD,
June 2-d2taw3m Gen'l Manager.
